

1. Visa Requirements for Mars Travelers

Subject: *Martian Visitor's Visa: What You Need to Know*

Congratulations on deciding to visit the Red Planet! Before you pack your bags, be sure to secure your Martian Visitor's Visa (MVV). Here's what you need:

1. **A Valid Earth Passport:**

Expiry date must extend beyond your return to Earth, in case of unexpected solar storms.

2. **Proof of Galactic Citizenship:**

A signed declaration that you hail from Earth (or a certified terrestrial colony).

3. **Martian Language Proficiency Test:**

Basic phrases like *"Take me to your leader"* and *"Where's the nearest crater café?"* will suffice.

4. **Alien Abduction Insurance:**

For your peace of mind, though Martian abductions are rare (1 in 10 million tourists).

Pro Tip: Expedite processing by bribing the Martian consulate with Earth chocolate. They're suckers for cocoa.
